PROFESSIONAL SUMMARY

Software Engineer with 4 years of professional experience developing and maintaining production web applications, SaaS platforms, enterprise systems, and AI-powered products. Strong frontend expertise in React, Next.js, and TypeScript, complemented by experience with Node.js, REST API integration, authentication-related workflows, and full-stack product maintenance. Experienced in AI chat, interactive presentation editors, chat systems, and real-time communication features. Focused on maintainable code, practical problem-solving and reliable product functionality.

PROFESSIONAL EXPERIENCE

Software Engineer | Wakeb_data *November 2024 – Present*

- Develop and maintain production frontend experiences for AI-powered products and enterprise platforms using React, Next.js, and TypeScript.
- Contribute to modernizing legacy PHP Blade administration interfaces into Next.js applications.
- Build interfaces for AI chat, writing, workflow automation, media and voice, presentations, and application settings.
- Develop reusable components and interactive workflows for dashboards, forms, tables, and complex business interfaces.
- Integrate application features with APIs and authentication flows, including asynchronous states and optimistic updates.
- Contribute to presentation-editor features including slide management, component CRUD, positioning, and navigation.
- Troubleshoot SSR, hydration, state management, localization, RTL/LTR layouts, and cross-library integration issues.
- Contribute to deployment automation and application development workflows.

Software Engineer | Pentavalue *March 2022 – November 2024*

- Developed and maintained web application features using JavaScript, TypeScript, and React-based technologies.
- Built reusable UI components, forms, tables, and data-driven views for business workflows.
- Integrated frontend features with backend APIs and handled validation, loading, and error states.
- Contributed to application maintenance, debugging, and iterative feature development.
- Delivered interface improvements aligned with product requirements and maintainability needs.

SELECTED PROJECTS

Wakeb Agent — AI Productivity Platform

- Contributed to product interfaces spanning AI chat, writing, workflow automation, media and voice, presentations, and settings.
- Worked on streaming chat experiences, asynchronous UI behavior, and API-connected workflows.

PPGEN — Presentation Editor

- Contributed to a Canva-like presentation editor with slide and element management.
- Worked on slide and component CRUD, positioning, navigation, and optimistic updates.

Pyxizhub — Chat and Real-Time Communication

- Built chat features including threaded conversations and authorization-related workflows.
- Worked on temporal authentication, timeline functionality, and customizable user themes.
- Contributed to video streaming and live meeting features.
- Supported frontend/backend maintenance and shell-based deployment automation.
- Contributed to three white-label releases.

Sahla Egypt

- Worked on application integrations involving Zoho, Firebase push notifications, and Google Maps.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, SQL fundamentals
Frontend: React, Next.js App Router, React Server Components, SSR, CSR
UI & Styling: Material UI, Tailwind CSS, HeroUI, reusable components, responsive UI
State & Data: React Query, Zustand, React Context, optimistic updates
Backend & APIs: Node.js, REST API integration, authentication-related workflows, application maintenance
Databases: PostgreSQL fundamentals, relational database concepts, SQL fundamentals
Forms & Validation: React Hook Form, Yup, dynamic forms, complex validation
AI & Real-Time: Streaming AI chat, threaded conversations, video streaming, live meetings
Localization: next-intl, Arabic/English, RTL/LTR interfaces
Tools: Git, GitHub, GitLab, shell-based deployment automation

EDUCATION

Information Technology Institute (ITI) — Python Full-Stack Development — A+ (2021)
Assiut University — Bachelor's Degree in Veterinary Medicine (2019)

CERTIFICATIONS

- CS50x — Introduction to Computer Science
- FWD — Web Professional Track
- React Native — Udemy

LANGUAGES

Arabic — Native
English — C1
